RE: April 19, 1850

April 19, 1988

The Manifesto is a magazine regarding the Mosquitian nation's social, religious, and political affairs. The magazine is a discourse on the nation of Miskito -- a Government in Exile.

## "AN ORIGINAL BEGINNING"

CAPITAL

The Seat of the Government Headquarters is at SILWIA, The capital) of the Kingdom of Mosquito, A Sovereign, Independant, Republic, incorporated by the will of the people for the people.

The MATRIARCH.

Committee Gomie Tidcup, Inc. is a religious, independant, "CHRIST" democratic, conservative, united, non-political, non-profit organization. Committee Gomie Tidcup, inc. is a charitable organization whose purpose it is to provide immediate relief to the people of Mosquitia; to collect donations of supplies and cash; to obtain service donations from healthcare professionals; to acquire neccessary equipment for delivery of

donations; and finally to deliver the donations to the people of Mosquitia. We will provide assistance to the refugees wherever they are located both now and in the future when there will be peace.

### THE CRIMES OF GENOCIDE

Committee Gornie Tidcup, Inc. is also to expose the crimes of Genocide being carried out against the people of Mosquitia. During the past centuries, the Mosquitian people have been subjected to forced resettlement alongside rapes murders, and destruction of homes, villages, churches, and hospitals. Since July 20, 1979 at Bluefields, the capital of Mosquitia, and August 15, 1979 in the State of Prinzapolka, Mosquitia to the present, the Mosquitian people have had many crimes of Genocide conducted against them. Daniel Ortega Saavedra Commandante is held responsible for setting whole congregations on fire, raping and then butchering pregnant women and their children. The allies of the Nicaragua Sandanista Government are the Cubans, the Russians. (The ex-Sandanistas and the ex-Samozistas -- who are the Contras, and the freedom fighters -- are whom Daniel Ortega Saavedra accuses of the crimes against our people). The massacres are still occurring to the present day. These crimes must be brought before the World Court in Geneva, Switzerland; the United Nations, New York; the Parliament of Great Britain; the Parliament of Spain; the joint Congress of the United States of America; and all heads of nations.

SELF-DETERMINATION AND INDEPENDENCE FOR A SEPERATE STATE

The level of Patriotism and Nationalism among the Mosquitian citizens is at its highest. The uplifting of the Mosquito Nationalist Warriors was the first independent, sovereign movement agaisnt the Nicaraguan Government -- and we shall continue fighting because we are an independent nation. At no point in history were we, the Mosquitian people, ever signatories to any treaties. I, "M.T.T.T.", on behalf of the Mosquitian people, hereby declare all treaties and claims on the Mosquitian territories before 1492 NULL, VOID, and therefore ABOLISHED. The people of Mosquitia are to be known internationally as the citizens of said Republic.

I, "M.T.T.T.", am the representative of the Mosquitian nation and of all of its inhabitants thereof. All of our territories are separate and apart from the Nicaraguan boundaries by which we are surrounded, and from the boundaries of the neighbouring countries. We demand the return of all our lands. None of our territories have ever been surrendered or ceded by any treaties whatsoever, for we have not been a party to any of the treaties which have been signed by Spain, Great Britain, the United States of America or Nicaragua. I declare all the above to be true and examination of each of the treaties will evidence the truth of this declaration. Therefore, on behalf of all the inhabitants of Mosquitia, I demand that the nation of Mosquitia exist as a sovereign and separate state, and that all labels of racist names be abolished.

Also, it must be understood by all inhabitants of the earth that I, "M.T.T.T.", beg to repeat in the name of the Almighty Creator of Heaven and Earth that the Government Seat of the Mosquitia nation and its headquarters at Bluefields, the capital of Mosquitia, be declared an independent, sovereign state together with all her frontiers. We claim the seven depths below and the seven heights above the Mosquitian territory. We do claim the depths of the waters, rivers, seas, and oceans, the mountains and all living things. We do claim the breeze, the winds, the skies and its elements, the shifting clouds and the rainbows. We claim all the aforementioned for the Mosquitian nation; for all her inhabitants -- male and female. Thus it was before the birth of "CHRIST" and before the so-called discovery of 1492 by a Christopher Columbus (no-one of sound mind and judgement of the past and present should have ever taken credit for a said discovery of a land which was already inhabited -- and had been for thousands of years before the coming of the Europeans).

Committee Gomie Tidcup, Inc. is on a Crusade of Peace for the people of Mosquitia. It is an organization founded in the name of Humanity with the help of GOD THE FATHER.

John 16:33 "I have talked over these things with you so that in Me you may have peace. In the world you will have trouble; but have courage! I have overcome the world."

It is with such faith and courage that Committee Gomie Tidcup

plans to instill peace in the Mosquitian Atlantis Nation  
Caribbean Ancient \*\*\* Sea \*\*\* Seas of the Caribbean Central  
"TASBAS", Inc. (a territory of independent isles and mainlands).

\* \* \* \* \*

Committee Gomine Tidcup, Inc. is still a growing  
organization. It will enforce new rules and regulations,  
guidelines and by-laws as the religious organization grows.  
Changes made will be reported ,in writing, to the Secretary of  
State, March Fong Eu of Sacramento; to the Department of Treasury  
- Internal Revenue Service; and the Latin American Bureau in  
Washington, D.C.

DENOUNCEMENT

I wish to speak about the plight of my people, the Mosquitian inhabitants who inhabit portions of what is now regarded as the boundaries of Nicaragua, and neighbouring countries.

If I can be allowed to provide you with an example so that you can perceive the nature of this complex problem...the problem is similar to that of the people residing in the mountainous areas of Iran, Iraq, Turkey and the Soviet Union.

However, the difference makes my petition more timely and more beneficial for you to consider. You should seek to limit the authority of the Nicaraguan Government over the neighbouring people within their political boundaries -- The Republic of Mosquito.

And there is another difference. My people have never acceded to, or agreed to be bound by, or ever signed any of the so-called treaties which supposedly protected them...there is no document by which the Mosquito have ever agreed to be a part of any of the Central American political nations.

It is for this reason that I wish to address the Courts. It is my belief that you can voice what I tell you, in your own manner for the benefit of the Miskito Nation, to attack the

purported illegitimacy of the Nicaraguan Government over the peoples within their boundaries, and thus to diminish its powers and so-called claim over said nation, so that a democratic government can more surely be achieved by its people.

The history of the Mosquitian Lands discloses that there were successive treaties signed by Spain, Great Britain, the United States, and by Nicaragua...which, purportedly, were dispositive of the lands and my people as they existed long before there was a nation such as Nicaragua...and did so without even consulting the educated leaders of my people...in fact more educated than most of those who actually signed the document, for they spoke the local languages of the citizens e.g., French, Spanish, English, Miskito and Paya; regretablely we know that most of our Ambassadors are only comfortable in their own languages and at most, speak haltingly in any other language.

So my people were herded into more limited boundaries within these countries, and then, from time to time, herded into other boundaries if it became useful to Nicaragua and neighbouring countries to move them. They were treated as brutally as have been the Ethiopians who have been moved by their Communist Government which has raped and killed the people and have had their homes torched and destroyed. As I hope your good will may bear on ending these atrocities in other such countries as a part of your efforts and wish to bring democracy and a truly representative government to the citizens of the Mosquitian

stop NOW! "WORLD PEACE": is it just ten letters without a noun?

The Kingdom of Mosquitia is an independant sovereign state of a free republic, incorporated as such by its people. This is an appeal for the past due overrun and overridden injustice. Such is declared by "M.T.T.T." Robert Henry Clarence for the rights of all the people of all languages, tongues, creeds and political coalitions.

Wherefore, we the people, have declared for the people that all treaties we have already mentioned are decalred NULL, VOID, and ABOLISHED. Henceforth our nation is free and we are not obligated to sign treaties with any nation or kingdom as to our independence. Because those treaties were not signed by us that took away our Self-Respect, our Self-Determination, and our lands, we take steps to declare before the World Court in The Hague, the Netherlands, we demand that all nations, kingdoms, and republics to return all our territories as they are. We will not sell an inch of either land or sea. We firmly demand our territories as they are.

#### GENOCIDAL CRIMES

We are still bringing the Nicaraguan Government before the World Court for the crimes it has committed from July 20, 1979 to the present. We wish to address the human rights of our people and request you to listen to us. You are all aware that international human rights law often provides greater protections

to individuals and minority groups than does our own law. You have the authority to listen to me, and the obligation, after so listening, to assist me and those for whom we speak.

The tribes of the Miskito nation are exploding. Each day brings new violence, new arrests and new genocidal crimes. The inevitable rammification is a continuing tumult of waves of refugees -- those fleeing their homelands. The refugees are mostly under the age of 18; they represent our future leaders. Our future leaders are vulnerable to arrest and detention, and thousands have been brutally forced to leave the nation. The council of Churches and the Pastors of the Miskito territory over 20,000 of their college and university-age citizens have been forced to kill their own people by the Government of Nicaragua. Our children are academically equipped to continue their education in Miskito, English and other languages. Because they represent the future of Miskito, education must be a priority. The United Nations International Children's and Educational Fund (UNICEF) can make a difference. Clean, running rivers have been polluted with the stench of Genocidal Blood. We are on the verge of a catastrophe. Please give us your signatures, your voice.
